## Keeping Up -- With Uplanders

By V. V. P.

(This installment of Keeping Up was written while on a brief jaunt into Mexico last week.)

WITH MEXICANS

ENSENADA, Baja, California —Most tourists don't go to the police station unless they have to but we did it because we wanted to.

On this brief jaunt of about 80 miles into this "foreign land," we wanted to learn how other people did things and in what respects they differ from us.

Frankly, there is very, very little difference.

In the police station, for example, there were a couple of young, polite officers who spoke in their best broken English in answer to our questions. Further into the headquarters, an officer was quizzing a woman and typewriting her answers. We could visualize incidents surrounding that scene — some trouble and the officer was getting her story; just the same as in Upland or any California police station.

At another time we placed a long distance telephone call. The attendant, who said he had never been out Mexico, knew all the routine and served us without a hitch — except he got Oakland instead of Upland. We chided him about his English and he had a very ready reply and a chuckle.

Just to see if it could be done, we tried to cash a check at one of the four local banks. It couldn't be done. The cashier was very cordial but firm.

A youngster was bouncing a ball on a downtown sidewalk. It so happened we joined in, giving the ball a bounce, then knocking it to him. He accepted the incident jovially and went on about his play, the same as would any Upland youngster.

As to youngsters on the downtown streets, that's the one big human difference between here and our favorite southland. Children must attend school here only through the sixth grade and we doubt if the truant officer is very thorough. It seems to us that many kids, not old enough to be through the sixth, were on the streets. The school buildings we have seen are not large enough to serve many pupils. The Catholic church maintains at least one elementary school. One public high school serves those students who wish to continue their studies.

Since we are a Lion, we attended the Ensenada Lions club meeting the other night. We are accustomed to spending 1½ hours a week at our meeting in Upland. We were at the local meeting three hours.

"One thing about people down here," a young chemist said in very good English, "when a meeting is set for 8 o'clock, they never get here for at least half an hour." In the case of the Lions meeting, it was an hour late in starting. Actually, 9:30 p.m. when our delicious dinner of farm-fried steak, corn and beans was served.

Otherwise, the meeting here was almost the same as in Upland. People who do not belong to service clubs have probably learned that a Lions meeting is not always serious and that considerable heckling and repartee prevail. Such was the case here —informality mingled with serious affairs. Business concerned the club's decision in sponsoring a singing group from Mexco City.

A curio shop owner on my left and the Pontiac dealer on my right knew enough English to keep us up on what was the subject of a fairly heated discussion.

"If the club brings the singers here, they will get 60 per cent and the club will get 40 per cent," the curio merchant said. That's a sponsorship formula we've heard before and we felt right at home.

"We are building a children's hospital and the money would go for that," the man on the left added.

There was no doubt about the question when a Lion described to me as a "leading doctor," got through talking. We could observe his appealing, descriptive talk in Spanish was well received.

"He told us," the car dealer interpreted, "about some children who need special attention and what can be done for them."

The club voted to sponsor the singers and get some more funds to build the hospital. Picture of the proposed hospital are on placards all over town. The Kotary and 20-30 are other active service clubs here.

This is a town of residences— many palatial dwellings and many hovels. It would seem to us there would be many opportunities for charity.

## Amendment to Zoning Ordinance Being Prepared for Council

City Attorney Henry M. Busch is preparing an amendment to the city zoning ordinance, incorporating changes in sideyard requirements, to be presented at the next regular meeting of the city council May 20.

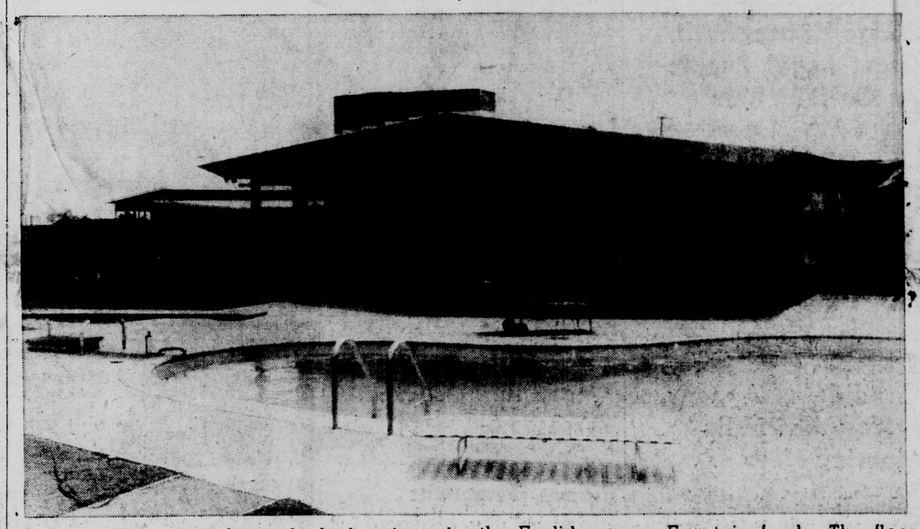

A hearing on the proposed amendment was conducted at the regular meeting of the city council Thursday evening in the city hall council chambers. Eight recommendations of the city building department will be incorporated in the amendment.

## Provincial Furnishings in Modern Setting At Wenger Home

A gracious blend of modern and traditional is evident in the home of Dr. and Mrs. Earl L. Wenger, 1607 North Euclid avenue, where French Provincial furnishings against a modern background provide a striking and comfortable home. The Wenger home is included in the tour of homes and gardens Sunday, from 12:30 to 5:30 p.m., to benefit the Euclid Avenue Fountain fund. Tickets will be available at each of the homes and gardens open for public inspection. Mrs. Wenger is pictured here in a corner of her living room, where the fireplace and paneled wall form the focal point for the main furniture grouping. An unusual feature is the planter wall which runs the width of the room, adding a note of spaciousness by exposing the central hallway through tropical planting. Opposite the planter wall is a window wall opening onto the garden of the home with citrus grove background.

## Patio and Pool Central Units of Mosher Home

Life centers about the sunbathed patio and pool in the contemporary home of Mr. and Mrs. Frank E. Mosher, 7560 Alta Cuesta, Red Hill, one of the seven homes to be open for the spring tour of homes and gardens to benefit the Euclid avenue Fountain fund. The floor to ceiling window opens from the dining alcove off the living room, with sliding glass doors opening to the patio at the right. Distinctive contemporary furnishings and landscaping complete the picture.

# Spring Tour of Upland Homes, Gardens To Attract Hundreds This Weekend

A one dollar donation to the Upland City Beautiful Euclid Fountain fund will provide a ticket to the Spring Tour of Upland Homes and Gardens this Sunday, from 12:30 to 5:30 p.m., and Mrs. Dorothy Gardner, chairman of the City Beautiful committee of the Chamber of Commerce, has prepared an outstanding tour of seven homes and one additional garden.

Selection of homes to be viewed on the tour was with an eye to architecture, interior decorating and furnishings, and landscaping in the current trend, those blending modern and traditional, and the charm of homes from an earlier period.

SEVEN HOMES ON TOUR

Seven of Upland's beautiful homes and gardens to be open for public inspection are the homes of Mr. and Mrs. Edwin L. Wickstrom, 117 West Arrow highway; Dr. and Mrs. Leslie G. Hoag, 1328 North Euclid avenue; Dr. and Mrs. Earl L. Wenger, 1607 North Euclid avenue; Mr. and Mrs. A. Basil Harris, 1617 North Euclid avenue; Mr. and Mrs. Leland S. Davidson, 2430 San Antonio Crescent west; Mr. and Mrs. Frank E. Mosher, 7560 Alta Cuesta, Red Hill, and Mr. and Mrs. Fred S. Thomson, 8578 Country Club drive, Red Hill.

The gardens at the home of Mr. and Mrs. C. J. Lindesmith, 1095 West Twenty-fifth street, will also be open to the public. Well established terraced planting is an outstanding feature of the Lindesmith gardens, and a unique patio is included. Mrs. Lindesmith is well-known in garden club circles of the Southland.

EARLY CALIFORNIA CHARM

A walled garden and roofed patio are among the charms of an early California home of Mr. and Mrs. Wickstrom, set in a yard noted for its beautiful old trees.

A blending of provincial and traditional furniture will attract the eyes of many homemakers at the home of Dr. and Mrs. Hoag. Other interior decorating features include a built-in bookcase aquariam.

HARMONIOUS COLORS

Harmonious blending of colors and fabrics, and French Provincial furnishings against a modern background will be found refreshing at the lovely home of Dr. and Mrs. Wenger.

Immediately north of the Wenger home, the public will have the opportunity of viewing the interior of the new home of Mr. and Mrs. Harris. An interesting example of the new trend in farm house architecture, the exterior features include a unique wishing well and split rail fence.

ELEGANT SIMPLICITY

An air of elegant simplicity reigns at the home of Mr. and Mrs. Davidson, in contemporary style where modern and antique French Provincial furnishings find a harmonious meeting place. An immense studio window in the living room will inspire vsitors with its magnificent view of the terraced gardens with the Sierra Madre mountains above the Heights providing a spectacular backdrop (weather permitting).

Another home built around a view is that of Mr. and Mrs. Thomson on Red Hill, which looks out over Cucamonga and the San Bernardino valley. Warm tones and simple modern furnishings keynote this contemporary house, with its floor to ceiling windows in the living room for full benefit of the panoramic view.

HOME ABOUT PATIO, POOL

Life centers about the patio and pool at the new home of Mr. and Mrs. Mosher, a distinctive contemporary style on Red Hill. Black wrought iron and many other recent decorator features are found in this new home. Unusual treatment of the landscaping in front of the home, for a minimum of maintenance and a maximum of severe good looks, makes the Mosher home easily identified from the street.

Tickets will be available at each of the homes for those who will have not donated to the Euclid fountain fund, according to Mrs. Gardner. They are also on sale now at the J. J. Atwood Co., The Upland News, Dorothy Gardner's Gift Shop, and Drew's in Ontario.

Hostesses for the homes on the tour will be members of the Upland Woman's club and the residents themselves.

HOSTESSES ANNOUNCED

Among the hostesses appointed yesterday to serve at various places on the garden tour are the following:

Mesdames Earl F. Riggs, Jack Dorrity, C. G. Hennessy, Isabelle Wisely, W. L. Carver, James Syren, G. C. Mitchell, Harry Wright, Francis N. Rogers, Leroy Parkins, Clyde Tigert, Ralph A. Hunt, J. Thomas Harris and J. P. Williams.

Tour tickets may be purchased at any of the places on the tour and the tour may begin at any point.

Be safe—be seen; at night wear white.

Carbon monoxide kills.

# Condemn Park Building For Food Serving

Serving or preparing of cooked food for consumption by the public in the concession building located adjacent to the skating rink at Upland Memorial park has been condemned by the County Health department.

Upland City council received this information from J. L. Turner, city and county sanitarian, after a health permit for use of the building as a serving kitchen for the Orange Empire Dog club sanction match Sunday was refused. The council granted the club permission to move a portable kitchen onto the park for the day.

The city was requested by the County Health department to grant no permission for any operation entailing the preparation of food in the concession building until the following deficiencies are overcome:

(1) Has no double compartment sink: (2) No hot water: (3) Walls and ceiling are unfinished; (4) Plumbing is installed for a sink but no septic tank or cesspool for disposal of waste water, and (5) Skating rink operation is not separated from the area where food would be prepared.

The Council noted that the building was not planned nor intended to serve as a kitchen, although it had served in this capacity in the past. The Atwood Memorial kitchen is located in another section of the park.

The money may be spent for clothes and incidentals which may be necessary for attending high school.

The League has also opened an account for a building fund in anticipation of some day having its own center. ## BPWC Endorses Louise C. Brown As Candidate

Because the women of the California Federation of Business and Professional Women's clubs believe in the eminent fitness of qualified women to serve in public office, and because they wish to encourage more women who possess the right qualifications to run for office, certain machinery was set up and adopted at the 1952 State convention to enable local clubs to endorse candidates.

Following through with this procedure, which includes careful screening and scrutiny of qualifications, the Upland Business and Professional Women's club has endorsed the candidacy of Mrs. Louise Corcoran Brown for the office of superintendent of school for San Bernardino county.

## Lecture on Hands Pleases Members Of Upland Woman's Club

Fascinating as well as enlightening was the lecture on "You—Your Hands—Your Vocation" given by Ann Marjorie Gretchen Shriber for members and guests of the Upland Woman's club at their meeting Tuesday in the clubhouse.

Miss Shriber achieved her first success in life as a photographer. Later she studied for several years with Dr. William G. Benham, head of the New York Institute for Vocational Guidance, who evolved the science that there is a direct tie-up between hands and vocations, and then put her learning to work. It was one of her distinct pleasures to help educate J. Edgar Hoover in the relationship between hands and criminals.

The speaker was introduced by Mrs. Bruce Claflin, program chairman.

Mrs. Robert L. Jones, president, presided over the meeting. Mrs. Ralph J. Wilson led in the singing of "America the Beautiful," with Mrs. Gladys Kelley at the piano. The pledge of allegiance was led by Mrs. William Smith, and Mrs. Paul M. Young read the club collect.

Highlights of the recent Southern District convention were given by Mrs. Jones. Guests were introduced by Mrs. Lyman A. Keys.

# Save Money With Termite Contract

Our windstorm last winter tore up and off quite a few roofs. Nearly everyone had insurance to take care of this unexpected additional expense. Think of the consequences to your budget had you been without that protection.

When fire strikes, the cost can be unexpected and disastrous. Most of us have insurance to protect our budgets from these emergencies. When unexpectedd illness, surgery, and even accidents strike, most of us have some form of protection for these catastrophic losses, such as Health and Accident insurance.

During the past ten years great numbers of home owners have paid us (and of course also to our competitors), large lump sums to correct infestations of termites, and to repair the damage caused by the same. Many of these, in fact most of them, were completely unexpected. How would YOU like to have an additional bill of two or three hundred dollars to squeeze out of your budget?

But that is not necessary. Through the medium of our Termite Safety Contract you too can have permanent protection from this catastrophe. This newly perfected contract makes the termite problems in your home belong to us. Through regular inspections we detect them, and treatments when necessary, are performed without cost to you, beyond the nominal fee for this service. For complete particulars and details without cost or obligation, phone or write:

# Joan Sleuman Becomes Bride of Joseph Michael Siran in Home Rites

Miss Joan Sleuman, daughter of Mr. and Mrs. G. Vernon Sleuman, 1720 North Mountain avenue, and Joseph Michael Siran, son of Mrs. John Gruber, Granada court, Ontario, exchanged wedding vows Friday evening in rites held at the home of the bride's brother-in-law and sister, Mr. and Mrs. Gerald R. Westphal, 7833 Alta Cuesta drive, Red Hill.

About 35 relatives and close friends witnessed the double-ring ceremony performed by Dr. Harland Hogue of Claremont. The couple stood before the fireplace, which was banked with white gladioli and white stock, with a seven-branched candelabra at each side. Mrs. Earl H. Johnson played the traditional wedding marches.

Given in marriage by her father the bride was charming in a ballet-length gown of white lace, with fitted bodice and pleated nylon net insets in the skirt. A matching lace cap held her shoulder-length veil in place, and she carried a bouquet of white sweet peas centered with a white orchid.

Mrs. Westphal attended her sister as matron of honor. Her ballet-length gown was of mint green taffeta, and she carried a bouquet of white sweet peas.

Four-year-old Wendy Westphal, niece of the bride, was junior bridesmaid. She wore a frock of yellow dotted swiss and carried white sweet peas.

Frank Colella served the bridegroom as best man.

The mother of the bride was gowned in rose crepe with a corsage of white carnations, while the bridegrooms' mother chose navy blue costume with a white carnation corsage.

The bridal couple received congratulations at a reception which followed the nuptial rites, and refreshments were served. After the bride and bridegroom had cut the first slice of the four-tiered cake, according to tradition, Mrs. Frank Colella continued the cutting and serving. Mrs. Joe Poehlman and Miss Sally McCabe poured, and Mrs. P. R. Covington had charge of the guest book.

When the newlyweds left for a week end honeymoon at Newport Beach, the bride was wearing a light gray wool suit with jewelled collar. They are now residing on East Arrow highway, Cucamonga.

The new Mrs. Siran, who was born and reared in Upland, attended Chaffey high school and Girls Collegiate school in Claremont, and was graduated from Chaffey college. She is a member of Beta Sigma Phi, and is presently employed as a teller in the Ontario branch of the Bank of America.

The bridegroom, proprietor of Mike Siran's Service Station in Cucamonga, served in the United States Navy during World War II. He is a member of the Cucamonga Lions club.

## Barrier In 'C' Street Project Being Removed

A barrier in the progress of extending "C" street east from Third avenue for a new shopping center has been eliminated, with City Attorney Henry M. Busch completing negotiations with the Pacific Electric railway company for the purchase of three parcels of land by the city necessary for development of the area.

Mr. Busch was authorized by the city council to complete negotiations after the Pacific Electric agreed to modify a paragraph in the agreement regarding a future grade crossing, found objectionable by the city.

Carl M. Buck has indicated he is ready to proceed with the extension of C street as soon as the legal details are completed. Mr. Buck has agreed to purchase the city's six acres immediately east of Third avenue, but this property exchange has been held up by the delay in purchasing the three small parcels from the railroad company. Mr. Buck has already purchased the land east of the city property to Fifth avenue, all north of Ninth street.

## Recommendations Of Insurance Firms Received By City

A spoil bank along the roadside bordering the upper city dump with gates installed at the two roadways leading to the dump area is the recommendation to the city council of the safety engineer of the Great American Indemnity company, with which the city carries a policy.

The council referred the recommendation to the Police committee, composed of Councilmen E. Tweed Stone and Donald Carr, with power to act at its meeting Thursday night.

A recommended increase in fire insurance on the city hall, from $20,000 to $120,000, was presented by City Manager Richard G. Manley. The recommendation was included in fire insurance reports from two local companies carrying city insurance. It was agreed that the entire report should be taken up for discussion by the entire Council in a special meeting, as it would be too voluminous for a regular meeting. No date was set for such study.

# Elementary PTA Hears District Rangers On Forest Service

Lyold Hayes, U. S. District ranger, and his assistant, Frank Watson, brought an enlightening message to members of the Upland Elementary P-TA at their last regular meeting of the schooi year Tuesday night.

Meeting in Upland Elementary school auditorium Tuesday night, the P-TA membership heard Mr. Hayes and viewed the film, "The Frying Pan and the Fire."

**URGES FIRE PREVENTION**

In his informational address, Mr. Hayes told the parents the U. S. Forest Ranger service's inadequate financing causes the department to maintain present camp and picnic grounds at only a minimum. He asked the cooperation of the public in caring for government property and stressed the need for the utmost precautions to be taken in the area of fire prevention.

Mrs. Oren W. Volz, P-TA president, called on Mrs. Fred Perry, outgoing chairman of juvenile protection and safety, who presented a summer vacationtime safety skit with the assistance of Cathy Ryan, Linda Sue Volz, Devaugh Kissick, John Perry, Fred Perry, Jr., and Donald Norva.

**REPORT ON CONVENTION**

Mrs. Dean H. Engle, delegate to the 55th California Congress of Parents and Teachers convention held recently in San Francisco, gave a brief report of her impressions of the conference. She stated that "Progress Through Action" was given as the 1954-55 theme.

Kindergarten parents served refreshments in the cafeteria during the social hour following the meeting. Mrs. Paul Garen served as chairman, assisted by Mrs. Donald Stewart, Mrs. K. S. Corrington, Mrs. Leon Lamphear, Mrs. J. H. Smith and Mrs. Paul Adams.

## Diagonal Route Location Issue; Backing Assured

Location and construction of a "diagonal highway" is of top interest among Etiwanda leaders and their views and those of Supervisor William R. Mason were expressed at a meeting of the Cucamonga Safety council Tuesday night.

Etiwanda favors one definite location of the proposed route north of Foothill and a new study is being sought from the county highway department in the interests of obtaining a new recommendation.

Mr. Mason, who was present and who had been asked for a statement, reiterated his declaration in support of a diagonal route as a means of relieving truck traffic congestion in Etiwanda, Fontana as well as on Euclid avenue.

W. G. Pearson was Etiwanda's spokesman in arguing for the use of the county property some distance east of Etiwanda avenue.

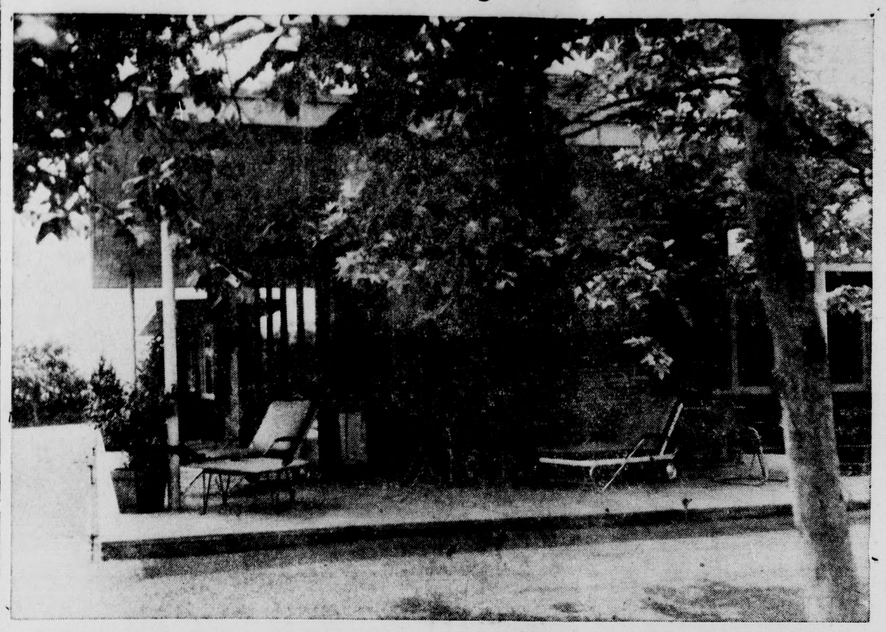

Mr. Mason's statement follows:

"I am now and have been for years, and will continue to be clearly and unalterably for a bypass road through the open sections now available between Etiwanda and Fontana.

"Actual adoption and construction must await available federal aid funds which are used for the new road developments. There is no material difference on exact location, as this is a matter that can best be determined by complete exploration of engineering findings.

"I will continue to be pushing this road at the necessary times when action can accomplish the fact, and I will not stand in the way of the northerly section as against the first proposed complete route. I believe and will support an acceptable northerly portion as being one that can be reasonably financed and accomplished."

## Panoramic View of Cucamonga From Thomson Home

Attractive landscaping surrounds the handsome modern home of Mr. and Mrs. Fred S. Thomson, 8578 Country Club drive, Red Hill, one of the seven homes to be open for inspection during the Spring tour of Homes and Gardens this Sunday afternoon, as a benefit for the Euclid avenue Fountain fund. The flagstone paved terrace off the living room of the Thomson home is pictured. From the floor to ceiling windows, a panoramic view of Cucamonga and the San Bernardino valley unfolds.

## Re-elect Sheriff Mueller

* * *

## Surveyor Candidate Recommended

Four years of service as sheriff of this county has proven that Eugene L. Mueller should be continued in office. One of the greatest revolutions has occurred in the courthouse due to Mr. Mueller's leadership. He has changed things considerably—and that is what the voters wanted when they elected him in 1950.

People who know about law enforcement and administration of a large force of men are firm in their declaration that Sheriff Mueller has gone far in a comparatively short time to give the county a modern organization.

The sheriff's strong points are his ability to lead, to inspire and to organize for action. He is the "modern day" sheriff and when he took office, methods of a former era had to be changed. His changes caused a mild revolution in the courthouse. When a new executive changes long-established routine, seeks to inject new life into a group and demands action, there is certain to be criticism and objection.

Sheriff Mueller has won many, many friends and admirers—and enemies—as would any positive leader with a tremendous job on his hands.

A studied appraisal of the record and the complaints lead to the conclusion that Sheriff Mueller is one of the most progressive department heads in the county. We need more elective officials with his vigor and determination.

---

J. W. Abbey, a veteran employe in the county surveyor's office, is one of the three candidates for county surveyor. This can be regarded as a non-political office and one to which the most skilled surveyor available should be elected.

We are not personally acquainted with any of the candidates but people in San Bernardino in whom we have confidence and know the candidates, recommend the election of Mr. Abbey. Mr. Abbey has been a very dependable and efficient employe in the department. Now the time has come for a new department head to be elected, since the present surveyor is not a candidate for reelection.

Based on what we believe is a true analysis of the three candidates we expect to vote for Mr. Abbey next month.

## More Beauty For Euclid

Construction of a water fountain, pool and attractive identification markers on the south side of Foothill boulevard on the Euclid avenue parkway is a commedable project.

It can be realized if and when local people contribute $3,000. The spring tour to local homes and local gardens is planned as a money-raising activity, all proceeds going to the Euclid fountain fund. Cash contributions are also acceptable.

The tour to local homes and gardens is on Sunday. Cost of the tickets is $1. In news stories and pictures in today's issue of The Upland News, interested people can learn of the tour details.

The tour itself is very worthwhile, enabling people to see the interiors of some of the most attractive houses and gardens in the community. Added to the "cause" to be served by the proceeds, the tour opportunity should be enthusiastically received.

Mrs. Dorothy Gardner, chairman of the "city beautiful" committee of the Upland chamber of commerce, developed the idea for the water fountain and pool. Directors of the chamber approved the project and the Upland city council has given its permission for installation of the added attraction to the famous intersection. Mrs. Betty Davenport Ford, local sculpturist who has gained wide fame, will create the artistic figurines. The figurines will be placed at each side of the pool and from them will shoot out water. The pool, in size, is scheduled to be 12 feet wide from west to east, and 30 feet from north to south. Stone blocks will be used in the construction and properly placed will be the words, "Euclid Avenue, Upland." The water fountains will be illuminated at night, serving as identificaiton for the city and the avenue as well as adding to the beauty of the parkway.

Such an improvement project logically should come as the result of volunteer community participation rather than from the city's operating budget.

Tickets for the tour are on sale at local stores. Cash donations may be sent to Mrs. Gardner.

Together, we can give more beauty to the widely famous Euclid avenue.

## Faith Shown Against Bombs

Not everybody is convinced that the A-bomb and the H-bomb are eventually going to wipe life from this planet. And at least one large corporation thinks it will be in business 100 years from now and a large insurance company has backed up that confidence in a big way.

The Chrysler corporation recently completed arrangements for a $250,000,000 loan from the Prudential Insurance Co., payable on July 1, 2054. Such confidence in the future should give timid souls courage to come out from the basement bomb shelters and go about life in a normal way.

Of course, it could be pointed out that even if everything is blown sky high during the next century Chrysler won't be around to pay the loan and Prudential won't be here to collect. Such a happy thought!

Who gets the money Standard takes in?

**Goods and services**—from paper clips to professional services—cost us $324,743,000. It was spent with thousands of firms, large and small.

**Crude oil** was a big item. To supplement our own production we bought $135,600,000 worth—an important sum to crude oil producers.

**Wear and tear,** depreciation and upkeep cost $157,834,000. Part of it will replace worn-out facilities, but millions went to workmen, technicians.

**New construction,** such as refinery facilities, to make more and better products, cost $145,000,000. This helped meet builders' payrolls.

**Exploration** to replace oil our customers use is a vital operation. Our stepped-up search for new oil reserves cost $79,000,000 in 1953.

**Employees' wages** for time worked took $163,947,000 of our income. Another $43,000,000 went for employee benefits for Standard Oilers.

**Taxes** paid by Standard to U. S., states, counties and cities amounted to $106,300,000—enough to buy plenty of fire trucks, schools, bridges.

**112,000 shareholders'** profits came from what was left. They received about 5½¢ on each dollar's worth of stock. Total: $86,020,000.

**Your picture** belongs here, too. Because most of the $1,156,757,000 Standard Oil Company of California took in last year ended up with you—the public. Whether one of the hundreds of millions of dollars worth of checks Standard wrote last year was sent to you, or spent with you, or helped make possible better gasoline and oil for your car, you and practically everyone else in the West benefited. Thousands of merchants and professional people in hundreds of towns profited from the pay checks Standard Oilers spent. Our tax payments helped finance schools for your children, parks for vacationers, and bridges for motorists. Carpenters, steelmen, lumberjacks benefited from the facilities we built and the maintenance work we did. It all fits together: 1953 was a good year for Standard because so many of you thought our products well made and worth buying. And by making it a good year for us, you made it a good year for many others.

## Fly Killer Ingredients Available

Responding to a story in The Upland News of April 29, which told of a sure method for fly abatement, local residents flocked to Upland drug stores to purchase one of the two poison ingredients for the fly killer.

Neither malathion nor diazinon are generally sold in drug stores, however, and one desperate housewife, Mrs. W. F. Nesbit of Cucamonga, turned to The Upland News to learn where she could buy the necessary ingredients to rid her home premises of flies.

A check with J. L. Turner, Upland resident and city and county health sanitarian, who provided the fly killer story for The News, revealed that malathion can be purchased locally but diazinon is hard to find.

Malathion can be purchased in small amounts in Upland, and Mr. Turner reports two retail outlets which he said have it in stock. These outlets are Upland Feed and Fuel, and Horticultural Center. He said a small amount is sufficient for domestic use, but for chicken ranches and other places where it would be used in larger amounts, a larger amount of malathion can be purchased by order or at California Spray Chemical company, North Garey avenue, Pomona.

Miss Hennessy has chosen as her topic, "The Pioneer Mother." She speaks in Area No. 4 of Southern California, competing with junior college students from Imperial, Orange, Riverside and San Bernardino counties. The Area contest will be held in Riverside.

A freshman at Chaffey college, Miss Hennessy is majoring in speech. ## Uplanders' Grandson One Chosen To Make Goodwill Trip

Recent guests of Mr. and Mrs. Verl C. Haynes at their home, 280 North Campus avenue, were eight students from the University of California at Berkeley, including their grandson, Keith Sexton of Barstow, Barbara Fischer of El Cerrito, Marianne Meyler and Bill Bryant, of Berkeley; Phil Thompson of Sacramento, Don Luce of Boise, Idaho, Constance Downey of Richmond, and Mike Mehta of Bombay, India.

All are members of P.I.C.—Pakistan-India-Ceylon project. This is a goodwill tour to foreign lands conducted each summer by the college. Out of 60 members eight are selected to make this trip.

Three of the visiting group have been chosen, Bill Bryant, Constance Downey and Keith Sexton. They will leave soon after graduation on June 18, and will make the entire trip by plane.

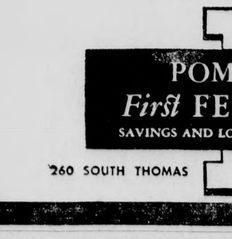

Leon Keyserling, former Government economic adviser: "A national economy that produces no more jobs, no more products, no more retail sales, no more farm income than it did the year before is doomed to the same kind of economic trap that the nation fa in 1929."

Students over the United States made 165,000 entries in 27 classifications for the exhibit. Of these, 32,000 won in regional exhibition and 1,427 have won in the national judging.

Five hundred of the national winners receive $25 cash prizes, and Van Brunt has been awarded the Strathmore award for Southern California, and $25. His painting won a gold key in the regional competition in February. It was the third consecutive year the young artist has been a regional gold key winner.

IT'S AMERICA'S
"BEST SELLER"
Because it's America's Best Buy

Ford has pioneered in bringing the most worth-while things to the most people . . . and more and more people are now buying Fords

FOR A LONG TIME, people have recognized that Ford is the "Worth More" car. And they have been expressing their preference in a great and growing volume of purchases.

The reason is simple. More and more people have found in Ford everything they want and need.

If you're in the market for *any* new car, Test Drive a Ford and find out what a brilliant performer it is and you'll really understand why Ford is America's Best Seller and America's Best Buy.

**In the first place:** Ford offers the two most modern engines in the industry: a new 130-h.p. Y-block V-8 and 115-h.p. I-block Six.

**As for comfort**—Ford is the only car in its field with Ball-Joint Front Suspension for handling and riding ease.

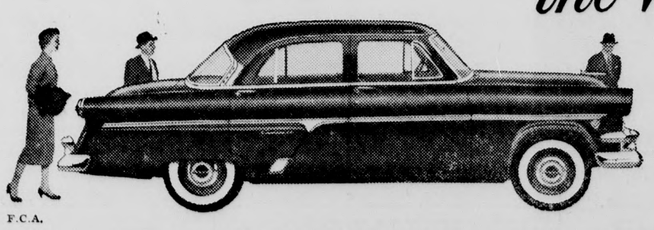

**Choice,** too, is a department where Ford excells. You'll find just exactly the car for you among the 14 body styles and more than 100 body color and upholstery combinations in Ford's three great lines.

Ford is a completely *modern* car. The advanced fine-car features that make it "Worth More" when you buy it, will also make it "Worth More" to someone else when you sell it.

Why not accept our invitation to Test Drive a '54 Ford . . . and see why America's best seller is your best buy!

What Recreation Does Upland Offer?

# Panel Discussion For Jr. High PTA

What does Upland offer our young teen-agers to do all summer and in their free time during the winter? This question will be answered in a two panel discussion at the regular meeting of the new Upland Junior High School P-TA Tuesday night at 7:30 in the Upland Elementary School auditorium.

According to Mrs. James L. Freeman, president, a panel of six junior high school students will tell the group what the young people want in the way of recreation from their homes, their churches, and their community. Diane Claflin and Richard Beck will present the ideas of seventh graders. Marcia Kelber and Don Flocker will report the findings of a census taken of eighth grade ideas. The ninth grade will be represented by Jean Townsend and Ed Pollack.

**ADULTS TO RESPOND**

A panel of adults will respond to the students, to outline what is being offered at present in Upland to meet their recreational needs and to present a picture of some of the future plans.

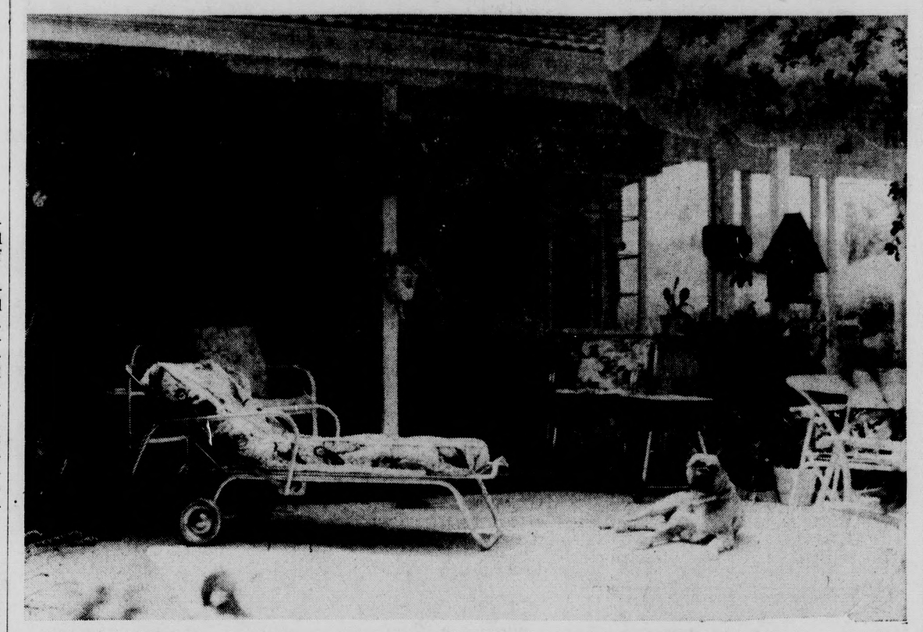

Truck Lindsey, director of Upland summer recreation, will speak on this summer's activities. Jack Feeney will tell what is offered through Chaffey in a summer musical program. E. Tweed Stone, chairman of recreation on the city council, will present the city's entire program. Harold W. Cook will represent the schools on the panel. Mrs. Donald I. Ricci will tell of the family viewpoint. Others will represent the churches and the police department.

**PARENTS MAY SPEAK**

Opportunity will be given parents to share their ideas and to answer any questions. Parents, young people, and all interested citizens are invited to attend.

The Upland Junior High School orchestra, under the direction of Elbert Warren, will entertain with musical selections.

Patio Central Attraction of Lindesmith Gardens

Hanging planters, lush foliage, an outdoor fireplace grill, an unusual bird feeder and comfortable lounge furniture make a delightful spot of the patio at the home of Mr. and Mrs. C. J. Lindesmith, 1095 West Twenty-fifth street. The gardens of the Lindesmith home will be open for public inspection on the Tour of Upland Homes and Gardens this Sunday, 12:30 to 5:30 p.m., as a benefit for the Euclid Fountain project. Colorful terrace planting is a feature of the Lindesmith gardens. Lindy, the family Boxer, is pictured soaking up the sun on the Lindesmith patio.

# Raiders Split Two Ball Games

A Mt. Baldy league game on the Upland Junior High school diamond will be played today by the Raider varsity and Webb school of Claremont. On Monday of this week, the Upland baseball club split two practice games with Fontana, winning 7-6 and then losing 8-3 in a game called after five innings.

Coach John Masterson's team won the playoff of a previous tie game with Fontana. Two winning runs in the seventh were made by Gary Thrall and Paul Porter. Richard Hemsley hurled a nice game.

In the second game, called due to time, the Fontana team won 8-3, as the Raiders walked too many Fontana men and made too many errors. John Miguelena was the leading hitter with two for three.

Thursday a 6-2 defeat was handed the Raiders at Fremont Junior High school in Pomona, as Hemsley pitched a five-hitter. Upland's three errors, all in the second inning, gave the winners five runs. Carl Skvarna added two hits for Upland. In their first league games of the season, the Raiders lost to Boys Republic 18-7, and to Emerson, 7-3.
